

Year 3 Self Isolation Activities

LITERACY	NUMERACY	HEALTH & WELLBEING	CREATIVE
<p>Create a fact page all about the Celts. Use the Internet and the work we have done in class to help you with facts. You could include facts about when they lived, what homes they lived in, what they looked like and what they did. You could even draw pictures or insert some from the internet if doing your work on a computer.</p>	<p>Make 10 number cards using bits of paper. Label the cards with numbers from 0 to 9. Make another 10 cards, this time with the numbers 10, 20, 30, 40, 50, 60, 70, 80, 90. Use the number cards to make different 2-digit numbers. Then try any of the following:</p> <ul style="list-style-type: none"> - Make 5 2-digit numbers and put them in order, from smallest to largest. - Make 2 2-digit numbers and add them together. - Make 2 2-digit numbers and take the smaller number away from the larger number. <p>For an extra challenge, you could then make an extra set of number cards, this time with 100, 200, 300, 400, 500, 600, 700, 800 and 900. You could then repeat the above activities, this time with 3-digit numbers.</p>	<p>Have a look at the breathing exercises on our Google Classroom. They are under 'Health and Wellbeing'. If you can sit outside, you could do these outdoors too.</p>	<p>Design a Celtic shield for a Celtic warrior. The Celts liked to decorate things with swirls. You could even make a shield using an empty cereal box perhaps.</p>
<p>Make a list of questions that you could ask a Celt. What would you like to know about them and how they lived? Remember to start all of your questions with a capital letter and end them all with a question mark.</p>	<p>Rehearse times tables, especially 2s, 5s and 10s, but also 3s and 4s. There are fun songs online to help you remember them too (lots of these are on our Google Classroom, under 'Maths.')</p>	<p>Draw a picture of what you can see out of a window in your house. Listen to some of your favourite music while you draw if you find this comforting.</p>	<p>Make a celtic torc using plasticene, playdoh, or salt dough. Torcs were usually made of bronze and worn by the most important members of the tribe. They would wear them around their necks. Or, you could make a brooch to help fasten a Celtic shawl.</p>

Imagine that you are a Celt living in the Iron Age. Write a diary entry. You can start with "Dear Diary." Write about the things you have done today e.g. "I woke up in my roundhouse at sunrise. I put on my tunic and went down to the river to collect some water..." Think about the jobs that you would have done in a day. Perhaps your tribe had a battle with another tribe- how would you have felt? What weapons did you use?

Use a clock at home to recap telling the time. Learn to read o'clock, 5, 10, 20 and 25 past, quarter past, quarter to and half past. Once you know these well, move on to the times that are to the hour (25 to, 20 to, 10 to, 5 to).

Research: Find out who Boudicca was and why she important to the Celtic people.
